Side Projects

Dev Blog CMS & Portfolio - Fullstack Developer

React Tailwind Express My SQL TiDB DBeaver Figma Vercel Render

Portfolio & blog system with admin-only backend.

4Rest Website (developing) - Fullstack Developer

React Tailwind Express My SQL TiDB DBeaver Figma Vercel Render

Nature travel directory with CMS-style backend.

Planned : evolve into a community platform with blogging and discussion by location.

Scander (developing) - Fullstack Developer

React Tailwind Express My SQL TiDB DBeaver Figma Vercel Render

Developed a smart POS system allowing customers to scan a table QR code to view the menu and order directly from their phones. Improved service flow by sending orders instantly to the kitchen, reducing wait times and minimizing staff workload.
